# THE REAL

## 2024 CRITERIA THE OUTSTANDING BUILDING OF THE YEAR (TOBY) AWARDS

## **PROGRAM, CATEGORY, AND COMPETITION INFORMATION**

## **STARTING THE PROCESS**

Now it's even easier to ensure your building achieves the ultimate success. Effective 2023, the TOBY Awards are only given to properties carrying a BOMA 360 distinction (starting at the Regional level) — the most comprehensive and holistic evaluation of operational and management practices. Now you have two opportunities to highlight overall excellence for community impact, emergency preparedness, sustainability, health and wellness, and additional performance metrics for both commercial and industrial buildings.

Before entering the TOBY competition, applying for the BOMA 360 designation serves as the first step in ensuring your building has achieved the minimum level of operational best practices. A new universal recognition platform has been created to simplify the process to help shape high-performance buildings by providing an opportunity to educate property management professionals, reinforce team-building relationships, and increase asset value and tenant retention on a global basis.

The BOMA 360 and TOBY applications have been consolidated into BOMA International's new 360/TOBY portal where applicants will have access to both applications all in one place. Applicants will have an opportunity to see areas where they can improve before entering the TOBY competition and have a stronger application.

#### Apply for TOBY http://recognition.boma.org Share narratives about how your team Building SOP Manual achieves operational excellence Preventive Maintenance Task Sheet EnergyStar Statement of Performance • Building's Certificate of Insurance Refer to instructions for detailed STEP 5 documentation STEP 4 STEP 3 **Promote Your** Accomplishment STEP 1 Check out the **Complete BOMA** toolkits for **360 Application** announcing your achievements **Review BOMA 360** http://recognition.bom.org & TOBY Criteria & • Q1 Applicant Deadline - April 30 • Q2 Applicant Deadline - July 31 Instructions • Q3 Applicant Deadline - September 30 • Q4 Applicant Deadline - January 15

## **Achieve the Recognition Your Building Deserves**

## **CATEGORY DESCRIPTION – EARTH**

All Office buildings where the building ownership and building management team preserve and enhance the internal and external environment through green and sustainable programs.

Office buildings present a significant impact on the environment and the many convergent communities inside and outside the space. This award is given to those office buildings that best demonstrate successful application of a wide range of environmental sustainability and ESG (Environmental, Social, and Corporate Governance) practices and policies that identify, measure, mitigate and, communicate these impacts.

## **ELIGIBILITY REQUIREMENTS**

Below outlines the requirements for TOBY participation:

- 1. All buildings competing at the Regional and International level must be BOMA 360-designated.
- The building must win at the local level to advance to the regional level and must win at the regional level to advance to International.
   NOTE: At-Large entries, entries that are outside the jurisdiction of a local association, must submit their portfolio directly to their region using BOMA International's new 360/TOBY Recognition Portal at https://recognition.boma.org for regional judging and must notify their regional awards chair of their intention to compete.
- 3. All portfolios must have undergone a building inspection and scored at least 70% to be eligible to compete. Each entrant must upload the completed and signed TOBY Building Inspection Verification form to be eligible to compete at the Regional and International level (this form is provided by your local BOMA association or International Affiliate organization).
- 4. The building must be a member, or managed by an entity that is a member, in good standing with both their BOMA local association and BOMA International in order to compete at the local, regional and international levels. Specifically, all membership fees, and any other debt, must be paid prior to entry.
- 5. The building may not have won in the same category at the international level during the last 5 years (i.e. Buildings that win in 2023 are not eligible to compete until 2028 and awarded in 2029). The building may not have won in a different category at the international level during the last 3 years (i.e. Buildings that win in 2022 are not eligible to compete until 2025 and awarded in 2026).
- 6. The building must be occupied for at least one full year from the date of occupancy of the first tenant by June 15, 2023 with a minimum of 12 months of building operations.
- 7. At least 50% of a buildings' space must be used as office space to be considered.
- 8. Each building may enter in only one category.
- 9. All Entrants are required to provide the following:
  - Provide a copy of the Statement of Energy Performance generated from ENERGY STAR® in the past 12 months. This is a mandatory requirement and omitting this step or uploading an alternate document may result in disqualification. The property does not have to be EnergyStar rated, but must submit copy of verified report (including Life Science and Mixed-Use)
- 2. TOBY Inspection Verification Form

(Must be signed by a local judge.)

(Does not need to be stamped by an engineer.)

Any entry that does not include both a and b will not be eligible to compete at the International level.

It is no longer a requirement to share your EnergyStar data with BOMA International, and you do not need to have your Statement of Energy Performance stamped by an engineer. An entrant may choose to enter multiple buildings as a single entry only if the buildings are owned by the same company, managed by the same company, and the buildings are managed as a single entity and not within a suburban office park. All entries must disclose whether their entry is a single building or multiple buildings under the Building Operations and Management section.

- 10. All buildings competing at the Regional level must be BOMA 360 designated.
- 11. An Entrant may choose to enter multiple buildings as a single entry only if the buildings are owned by the same company, managed by the same company and the buildings are managed as a single entity and not within a suburban office park. All Entrants must disclose whether their entry is a single building or multiple buildings under the Building Information section.
- 12. For any building that enters the competition at the local and regional level that may encounter a change in management and/or ownership and wins at the International level, the award will be presented to the management company/owner at the time of the original entry.

#### Additional Requirements for Non-U.S. Entries:

**Canadian Entrants** are required to obtain a BOMA BEST® Sustainable Buildings certification. Each entrant must provide a copy of the certificate or letter from BOMA Canada attesting certification is valid in the competition year.

**Other International Entrants** should contact BOMA International regarding any questions on energy performance benchmarking requirements.

## MANDATORY ON-SITE BUILDING INSPECTION

In-person building inspections must take place at the local level of competition to ensure the entry meets the eligibility requirements and is registered in the correct category. A minimum score of 70% must be earned to be eligible to compete for a TOBY.

#### The following mandatory items must be inspected during the building inspection:

- 1. Building Environment IAQ Performance
- 2. Energy Performance/Energy
- Management System Monitoring
- 3. Refuse/Recycling Programs
- 4. Water Performance/Water Management
- 5. Multi-Tenant Corridors
- 7. Typical Tenant Suite
- 8. Landscaping/Site Management
- 9. Submetering
- 10. Occupant Communication/Education Visibility
- 11. Green Cleaning

6. Restrooms

The following documentation is mandatory where applicable and should be made available. On-line versions are acceptable but must be available at time of inspection at the property being inspected. Ease of navigation is essential to ensure that judges can easily and readily review:

- 1. Preventive Maintenance Manual
- Standard Operating Procedure (SOP) Manual/Documentation of Standard Operating Procedures (online or printed)
- 3. Environmental Purchasing Policies

Entrants should receive TOBY Building Inspection Verification form by their local BOMA or affiliated International affiliate organization. Any entry without an Inspection Verification form with their Regional submission will be disqualified.

## **ENTRY FEES**

#### TOBY Local Entry Fees

A local competition fee may be applicable. Each Entrant should check with their local association concerning fees.

#### BOMA 360 Performance Building Program Fee

BOMA 360 designation is required at the Regional and International levels of the TOBY Awards competition and must be valid through June of the year in which they are competing (06/30/24 for 2024).

Initial application and renewal of BOMA 360 is **\$850.00** for members and must be renewed every three years.

#### **Regional and International TOBY Entry Fees**

A total of \$450 USD in entry fees will be paid to BOMA International for each submission entering the TOBY regional competition. These fees will be collected once the entry has been completed and the "Submit" button has been pressed. No additional fees are collected for the International competition.

**NOTE:** All entries must be submitted, and fees received prior to your region's submission deadline in order to compete. Fees are non-refundable. Regional deadlines will be posted on <u>https://recognition.boma.org</u>.

## JUDGING / DATA / DEADLINES

- 1. Judging will occur at local, regional, and International levels.
- 2. Fees are non-refundable, due at time of entry. Entry is automatically disqualified for noncompliance.
- 3. EnergyStar data:

Country	ENERGY STAR® Statement of Energy Performance	BOMA BEST Certificate or Official Letter
All Entrants	$\checkmark$	
US Entrants	$\checkmark$	
Canadian Entrants	$\checkmark$	$\checkmark$

- 4. Each BOMA local association may submit one building in each category to the regional competition.
- 5. Each BOMA region may submit one building in each category to the International competition.
- 6. Each regional competition must close no later than March 31st.
- 7. Each region must submit their regional winners to BOMA International by April 15th.
- 8. Judging at the International level will occur in April and May and the TOBY Awards will be presented during the BOMA International Conference held in June or July.
- 9. Updated Entry Requirements will be presented during or prior to the BOMA International Conference.
- BOMA International's 360/TOBY Portal at <u>https://recognition.boma.org</u> will begin accepting entries for each new season approximately one month after the close of the BOMA International Conference. Check the 360/TOBY Portal for specific dates.

## **UNIVERSAL PORTFOLIO REQUIREMENTS**

#### Pho<mark>tograph</mark> Requirements

- File Type: Hi-Resolution JPEG compressed
- Maximum File Size: 2 MB
- Do not use photograph collages (Only single images)

#### Supporting Document Requirements

- File Type: PDF, DOC, DOCX, RTF, TXT
- Maximum File Size: 5 MB

#### Descriptive/Summary Text Requirements

Maximum word count is specified for each section

#### NOTE:

- Descriptive/summary text must be entered in the text box provided and may not be submitted as an uploaded file.
- Identify what an acronym represents at least once in each document.
- Text within required supporting documents does not count against character limits.

#### RECOMMENDATION

Text should be created in Word, or another similar program, and then copied and pasted into the text box. Please spell check prior to pasting it into the text box. Also, confirm that the copied text can be fully viewed online. If not, reduce the characters to fit the requirements.

## PORTFOLIO SPECIFICATIONS

The following information must be provided electronically using BOMA International's 360/TOBY Portal at <u>https://recognition.boma.org</u> to be considered for both the regional and International competitions. Strict adherence to the portfolio specifications listed herein is **required**.

Local entries must check with your BOMA local association for local submission requirements.

**NOTE:** Each section is limited to a specified amount of words. All entrants are encouraged to save and review their entries before submitting to ensure that all text/content is captured in the entry.

SUBMISSION REQUIREMENTS		
SECTION	POINTS	
BUILDING INFORMATION	2	
Describe the following:		
Building Description: Provide a summary of the physical description of the building(s), property, and location.		
Maximum of 3 <mark>50</mark> words		
Executive Summary (2 Points)		
Provide an overall summary of the property's (building, office park, etc.) overarching policy for environmental, sustainability, energy efficiency, wellness, etc. Describe the policies and philosophy of the property's ownership and management relating to this subject. Include if the project was built with this philosophy in mind or if it was implemented after construction and why this concept is important.		
Maximum of 600 words		
Attach the following:		
<ul> <li>Organizational chart for staff with qualifications</li> <li>Copy of any certifications and/or awards that have been achieved that are not related to ENERGY STAR® or BOMA BEST (optional)</li> </ul>		
Provide the following photographs of your building(s):		
<ul> <li>2 Exterior with one showing surrounding grounds and one showing the entire building.</li> <li>1 Interior (lobby and hallways)</li> <li>1 Standard tenant area</li> <li>1 Central plant or main mechanical room (chiller, fire pump or boiler room)</li> <li>2 Additional photographs, the subject matter of which is the entrant's choice</li> </ul>		
Provide the following Awards Ceremony Photographs:		
In addition to the competition photos, all regional and International entrants must upload one high-resolution (minimum 300 dpi, 1,500 pixels wide or larger) color JPEG (JPG) of the <b>building's exterior</b> for display at the awards ceremonies.		
Also, a photograph (JPEG) of the <b>management team (minimum 300 dpi, 750 pixels wide or larger)</b> responsible for daily management of the building(s) is required.		

Total of 11 attachments required – 1 optional – TOTAL 12 attachments					
SECTION 1: CLIMATE CHANGE & ENVIRONMENTAL RISK					20
MANAGEMENT					
D	es	cri	be the f	ollowing:	
		1.	Climat	e Change Risk Assessment & Management	
				Have you completed a climate change risk assessment to understand long- term risks to the building and site in the face of climate change? If so, please describe. ( <i>EXAMPLE: changes in long-term weather patterns; changes in the</i> <i>frequency of extreme weather events and natural hazards; rising sea levels;</i> <i>increased desertification, etc.</i> )	
			b.		
			c.		
			d.	Describe the building's climate change resilience plan and how it proposes the building will adapt to expected future risks, including measures and design features to address potential consequences of long-term climate change. (Example: extreme weather events, water scarcity, increase in ambient temperature, etc.)	
			e.		
		2.	E <mark>nv</mark> iro	nmental Risk Assessment & Management	
			a.	Describe environmental risk assessments completed to understand issues of	
				<ul> <li>environmental concern affecting the property?</li> <li>How frequently are they conducted?</li> </ul>	
				Describe the most recent audit – when was it completed, by whom, what	
				<ul> <li>parameters were assessed, and the findings?</li> <li>Does the report confirm that the property is in compliance with regulatory</li> </ul>	
				requirements?	
			b.	Describe environmental management plans and procedures in place to	
				address these environmental concerns? Please describe at least 3 concerns.	
			c. d	Describe emergency response plans to protect against natural, technological, human-induced, or other hazards? ( <i>Examples: pandemic preparedness,</i> <i>disaster recovery, crisis management, training and drills, fire protection,</i> <i>testing, maintenance, awareness, notification protocols, etc.</i> ) Describe the training program for Operations and Maintenance staff.	)
		3.	Innova		
			а.	Describe any innovations in this area such as carbon neutrality plans, "net zero" plans, etc.	
,	lax	im	um of 1	,750 words	
A	tta	ch	the foll	owing:	
	<ol> <li>Climate Change Risk Assessment</li> <li>Environmental Risk Assessment (i.e. Hazardous Building Materials Survey, Phase I Environmental Site Assessment, etc.)</li> </ol>				

3. Environmental Management Plan (i.e. one of the following: Asbestos Managemer	nt
Plan, Storage Tank Management Plan, Mold Management Plan, etc.)	
4. Climate Change Resilience Plan (optional)	
5. Emergency Response Plan (optional)	
6. Carbon Management Plan (optional)	
7. Documentation of any measures to enhance natural environment (optional)	
<b>NOTE:</b> Do not include entire manuals. Include only the table of contents, a summary of th	ne
manual and how it's implemented.	
Total of 2 attachments required – up to 7 attachments allowed	
SECTION 2: INDOOR ENVIRONMENTAL QUALITY	15
Describe the following:	
1. Describe measures that have been taken for lighting and visual comfort. (Example	
lighting audits; illuminance metering; daylight harvesting; task lighting; zoned light	ting;
occupancy sensors; glare reduction, etc.)	
<ol> <li>Describe the most recent Indoor Air Quality (IAQ) assessment report and how it w utilized to make improvements.</li> </ol>	vas
<ol> <li>Describe the policies and procedures in place at the building that enhance indoor</li> </ol>	
thermal comfort and indoor air quality. (Examples: IAQ issues reporting and how	
is <mark>su</mark> es are addressed; IAQ assessments; IAQ audits; IAQ monitoring; tobacco sm	noke
control; measures to ensure effective ventilation; HVAC filtration; contamination	
s <mark>ource pr</mark> otection, etc.)	
4. Describe occupant indoor environmental comfort surveys conducted to evaluate	
satisfaction levels with air quality, acoustics, thermal comfort, lighting and visual	1
comfort etc.? Include the most recent survey conducted – when was it completed tenant response rate, what questions were included, and the findings?	,
5. Has an assessment of background sound levels been conducted for the building?	2 If
so, describe the most recent audit conducted – when was it completed, by whom,	
what were the findings?	, and
6. Are any measures in place to minimize strong smells? (Examples: scent-free buil	din <mark>g</mark>
policy; use of negative pressurization; self-closing doors, or interstitial rooms, etc.	.)
7. Describe the integrated pest management program in place.	
8. Describe ways that you educate, engage or collaborate with tenants to support th	eir
indoor environmental comfort.	
Innovation	
9. Describe any innovative equipment or procedures used to enhance the indoor	
environmental comfort for your occupants such as: sound-masking equipment; so	ound-
absorbing materials; hydronic radiant heating or cooling; electric radiant heating,	
Maximum of 1,750 words	
Attach the following:	
1. Indoor Air Quality Policy and Annual Assessment	
<ol> <li>Tenant IAQ Request Logs (one-year tracking) including key performance indicato</li> </ol>	ors
3. Most recent Indoor Air Quality Monitoring report from the past 24 months	
4. Occupant indoor environmental comfort survey from past 24 months	
5. Scent-free policy (or equivalent) (optional)	
6. Awards or certifications related to indoor air quality (i.e. RESET Air Certification, e	etc.)
(optional)	

<ul> <li>scribe the following: <ol> <li>Green Cleaning Policy &amp; Program <ul> <li>Describe how often the policy is reviewed and updated. Include the checks and balances used to ensure policy is followed.</li> <li>Describe the steps taken to ensure use of green products and cleaning chemicals by both in-house staff and contractors/vendors.</li> <li>Describe two use of environmentally preferred products, maintenance of cleaning equipment and effective cleaning practices.</li> <li>Include standard operating procedures in place for cleaning activities.</li> <li>Describe how cleaning logs are maintained and what is included.</li> <li>Describe how cleaning procedures in place for cleaning activities.</li> <li>Describe how tenants are made aware of the cleaning policy and procedures and encouraged to participate.</li> <li>Describe training program for cleaning staff.</li> </ul> </li> <li>Green Cleaning Products &amp; Equipment/Devices <ul> <li>Bescribe what percentage of cleaning products and supplies carry a third-party certification (e.g., EcoLogo, Green Seal, US EPA Safer Choice, GREENGUARD, Forest Stewardship council etc.) 50% or tigher is preferred</li> <li>Describe what percentage of cleaning Industry Management Standard for sound levels of so and or the ISSA Cleaning Industry Management Standard for sound levels or less than 70dBa</li> </ul> </li> <li>Cleaning Audit <ul> <li>Describe any innovative equipment or supplies used onsite, such as the following: HEPA filters for vacuum cleaners, devices that use ionized or electrolyzed water, third-party certified or ultraviolet cleaning devices.</li> </ul> </li> <li>timovation <ul> <li>Green Cleaning Policy</li> <li>Annual Cleaning Audit</li> <li>Sample Tenant Communication</li> </ul> </li> <li>di dratachments required</li> </ol></li></ul>		TION 3: GREEN CLEANING	15
<ul> <li>1. Green Cleaning Policy &amp; Program <ol> <li>Describe how often the policy is reviewed and updated. Include the checks and balances used to ensure policy is followed.</li> <li>Describe the steps taken to ensure use of green products and cleaning chemicals by both in-house staff and contractors/vendors.</li> <li>Describe the use of environmentally preferred products, maintenance of cleaning equipment and effective cleaning practices.</li> <li>Include standard operating procedures in place for cleaning activities.</li> <li>Describe how cleaning logs are maintained and what is included.</li> <li>Describe how tenants are made aware of the cleaning policy and procedures and encouraged to participate.</li> <li>Describe training program for cleaning staff.</li> </ol> 3. Green Cleaning Products &amp; Equipment/Devices a. 	1
ii. ii. Furnishings: Selection should be based on the following	
considerations: longevity, repairability, re-configurability, ability to be	9
returned to the manufacturer at the end of its life.	
<ul> <li>iii. Operations and maintenance products: Describe percentage of products used for building operations and maintenance that carry a</li> </ul>	
third-party certification from EcoLogo, Green Seal or GREENGUAR	
iv. iv. Materials and interior finishes:	
Describe procedures for construction materials and interior	
finishes for tenant and base building construction.	
Describe percentage that carry a third-party certification from	
Green Seal, Green Guard, EcoLogo, Cradle to Cradle, ENERG	iY
STAR, WaterSense, Forest Stewardship Council, Sustainable	
Forestry Initiative, or the Canadian Standards Association's	
Sustainable Forest Management Standard, etc.	
v. HVAC equipment: Describe percentage that is high-efficiency and	
meets ASHRAE 90.1, ENERGY STAR or WaterSense standards.	
2. Engagement & Training	
a. Describe how the Environmental Purchasing Policy is shared with building	
staff, and contractors. b. Describe how tenants are required to comply with specific environmental	
criteria favoring the use of environmentally preferred construction materials	
interior finishes, equipment, furnishings etc. (e.g., via green lease, green	,
design criteria handbook or other method).	
3. Innovation	
a. Describe how the Environmental Purchasing Policy supports circular	
economy principles.

Canadian Entrants must also provide the BOMA BEST certification or letter. Any entrant that does not complete the following, will not be eligible to compete at the International level. Describe the following: 1. Provide a brief description of the following: (2 Points)	8 8

	b. Percentage of occupied gross leasable area for which you have energy
	consumption data (either through sub-metering or by other means). The data
	must represent consumption from the most recent 12-month period and must
	not be any older than the past 18 months.
	c. Describe how current energy consumption is being compared with
	consumption from past years and provide conclusions drawn from the
~	analysis over a minimum of 1 year.
2.	Energy and Water Management Plan (2 Points)
	a. Describe the most recent building-wide Energy and Water Audit (include the
	date of completion and immediate actions taken based on the results).
	<ul> <li>Provide an outline of energy and water conservation measures planned for implementation in the next 3 years.</li> </ul>
	c. Describe building operations and maintenance procedures and how they
	contribute to energy and water conservation (e.g. preventative maintenance
	programs; equipment and system performance monitoring; water leak
	inspections; etc.)
3.	Energy and Water Consumption Monitoring (1 Point)
	a. Describe tools used to monitor monthly consumption (e.g. spreadsheets,
	portals, monitoring programs with third parties, etc.)
	b. Describe any energy or water submetering in place.
	c. Compare current energy and water usage with past consumption and any
	reductions achieved.
	d. Describe the buildings' current energy and water reduction target(s).
4.	Education/Training (1 Point)
	a. Describe energy and water conservation training programs for building
	operations and management staff in the last 2 years. b. Describe energy and water conservation training programs for tenants in the
	last 2 years.
5.	
0.	a. Describe the type of lighting installed throughout the building.
	b. Describe any high-efficiency building equipment.
	c. Describe energy-efficient control strategies used on the BAS.
6.	Water-Efficient Features (1 Point)
	a. Des <mark>cri</mark> be washroom fixture standards and note what percentage of fixtures
	are low flow. Include flush and flow rates.
	b. Describe any water-efficient features of the irrigation system.
	c. Describe programs to reduce the use of potable water (e.g. use of
	native/drought-tolerant plant species, capturing rainwater and re-using for
	irrigation or plumbing; etc.).
7	d. Describe cooling tower water management program. Water Quality Program (2 Points)
1.	a. Describe water quality testing program (frequency, parameters tested for,
	etc.)
	b. b. Describe any water treatment programs or water quality filtration systems
	(e.g. reverse osmosis systems, activated carbon filters, kinetic degradation
	fluxion filters, sedimentation filters, ultraviolet sanitation, etc.)
8.	Innovative Technologies or Programs (3 Points)
	a. Describe any innovative technologies or programs in place that go above and
	beyond the industry standard to improve energy and/or water performance.
	Include measurable results, if available. (Examples include: onsite renewable
	energy generation; real-time monitoring; demand response reduction
	programs; district energy systems; deep lake water cooling; heat/energy
	recovery systems; energy harvesting battery; ice storage system for load
	shedding; data analytics platforms; building-wide sensors connected to
	artificial intelligence platforms; etc.) Benchmarking & Performance Scoring (10 Points)
9.	

Entrants will be scored based on their ENERGY STAR score as follows: • Score < 65: 3 Points • Score 65-74: 4 Points • Score 75-84: 5 Points • Score >84: 6 Points	
*For multiple buildings, use weightage average based on square footage	
Maximum of 1,750 words

US Entries – Total of 3 attachments required – up to 5 attachments allowed Canadian Entries – Total of 4 attachments required – up to 6 attachments allowed	d l
SECTION 7: STAKEHOLDER ENGAGEMENT	10
A Stakeholder is any person of interest or concern in the property, so this includes the Landlord, Property Management Team, Tenants, Vendors, and the Community.	
Describe the following: 1. ESG (Environmental, Social, Governance) a. Describe the property-level ESG program or policy in place and how it	is
implemented. i. If no ESG program, describe what programs management has place at their property to align themselves with standard ESG I practices.	
ii. Describe training or resources in place to educate the stakehol on the policy/best practices such as webinars, company trainin ownership guidelines, etc.	
<ul> <li>Wellness         <ul> <li>Describe policies management has implemented to create healthy wor environments for employees and tenants and to promote sustainable communities.</li> </ul> </li> </ul>	ĸ
b. Describe at least three wellness amenities available to one or all the stakeholders, such as rest areas, access to outdoor spaces, drinking w provisions, walking trails, fitness areas, immunization clinics, access to farmers markets, shared gardens, etc.	
<ul> <li>c. Describe how stakeholders are actively engaged, such as with ment health webinars, yoga workshops, etc.</li> </ul>	
<ul> <li>d. Describe building features that address the health and wellbeing of the stakeholders such as daylight levels, lighting controls, glare controls, us comfort controls, smoking policy, acoustic conditions, etc.</li> <li>e. Describe available methods of alternate transportation such as trolleys</li> </ul>	ser
stops, carpool programs, bike racks, bike rentals, etc.	

f.	Describe programs in place for management company employees that		
	support wellness.		
g.	Describe programs implemented since the outbreak of COVID-19 which you will keep in place to reduce contagious disease transmissions. Examples include hand hygiene standards, heath promotion signage, infectious disease plan response guidelines, contagious disease outbreak preparedness plan, enhanced cleaning, disinfecting and maintenance protocol, PPE Guidelines, etc.		
	unity Engagement		
a. b. <b>4. Innova</b> a.	engagement with local communities through building and tenant outreach as well as volunteerism. Examples include charitable contributions, volunteer programs, local causes, heath issues, promotional events, etc. Include how long each program has been in place. Describe if the impact can be quantified as additional income for the community or charitable event or has some type of savings associated with the impact.

#### SUBMITTED CONTENT

Building Registration Information and the Building Description may be used in Awards Program materials and with the media. Photographs may be used, with attribution, in Awards Program materials, with the media and in other BOMA International materials. All other content may be used by BOMA International in the creation of new industry materials. BOMA International will not include identifying information, such as building name, owner, etc., in these materials without the entrant's consent.

#### Building Owners and Managers Association (BOMA) International

The Building Owners and Managers Association (BOMA) International is a federation of 87 BOMA U.S. associations and 18 BOMA International affiliates. Founded in 1907, BOMA represents the owners and managers of all commercial property types including nearly 10 billion square feet of U.S. office space that supports 3.7 million jobs and contributes \$205 billion to the U.S. GDP. Its mission is to advance the interests of the entire commercial real estate industry through advocacy, education, research, standards and information. Find BOMA online at www.boma.org.

BOMA International • 1101 15th Street, NW, Suite 800 • Washington, DC 20005 • 202-326-6300 • https://recognition.boma.org
